Dear friends of Camp Livingstone,

Today, we humbly ask for your help.

In our February newsletter, we described the catastrophic failure of our oil furnace, spreading soot throughout the building's critical infrastructure (including insulation, ventilation, and so on). Repairing the damage involves far more than cleaning and maintenance, demanding costly upgrades to the building's electrical, plumbing, insulation and other systems.

The insurance company will cover much less than expected, leaving us with unexpected repair costs projected at $300,000. By faith, we have already begun the restoration work in order for Camp Livingstone to welcome campers for the Summer 2026 season. We know that the amount seems large, but we feel that as a community, we can come together and raise the funds.

We trust that God is at work, and that He may be calling you to be an answer to prayer.

Together, we can make a difference. Your donation — large or small — towards the $300,000 needed, will help us restore the dining hall.

We are asking that gifts be received by the end of April to help us pay contractors in a timely manner. Your prayers and financial support are a tangible way to stand with us in this season.

Thank you for building with us — not just buildings, but lives transformed by God. We are grateful to have you as part of the Camp Livingstone community.

With gratitude and faith,

The Camp Livingstone Board of Directors

Kelli Brunner, Austin Bailey, Joelle Carreau, Jon de Souza, Mary Valentine, Paul Cornett, Harry Antoine

Executive Camp Directors

Martin and Jacquie Gaudreau

"And my God will supply all your needs according to His riches in glory in Christ Jesus." Phil. 4:19
